

## Special Operations Training Support

### Augmenting SOCoE's Ability to Achieve the Mission

Since 2015, Amentum has supported the U.S. Army's John F. Kennedy Special Warfare Center and School, the Special Operations Center of Excellence (SOCoE), where we help augment instructional capabilities, capacity, and subject matter expertise.

We build on the training foundations all SOF personnel receive in their qualification courses and provide advanced training in special warfare doctrine, cyber operations, HUMINT, SOF targeting cycle, full spectrum surveillance, insurgency fundamentals, human factors considerations, civil affairs, and military information support operations.

Amentum continually works with our customer to identify gaps, and then help design and develop sound solutions for requirements. Our training enables SOF personnel to conduct specialized operational planning and intelligence training, tactical cyber operations, surveillance and site exploitation / identity management, and various special projects.

### Highlights

- 108 separate classes across 12 different courses
- Over 2,700 personnel trained
- Seven advanced skills courses
- **98%+ graduation rate**
- Currently training 1,000+ SOF and interagency personnel annually
- Training provided at multiple CONUS and OCONUS military installations including: Ft. Bragg, NC; Ft. Carson, CO; Joint Base Lewis-McChord, WA; Eglin Air Force Base, FL; Ft. Campbell, KY; Camp Dawson, WV; Poland; Germany; Japan; and Australia.

### Providing the Right Expertise

Amentum personnel are experts who create and set the conditions today for success on the battlefields of tomorrow. Our instructors, partnered with uniformed military and civilian government cadres, form a team environment focused on producing and delivering quality instruction, mentorship, and development. To ensure we have these talented personnel, we address three critical components: **recruitment** (screening, examining, selection, and hiring); **retention** (orientation, training, assigning, evaluating, and processing); and **teaming** (providing depth and breadth by drawing on peers).

## Special Projects

Our creative thinking, problem-solving, effective communication, and decision-making capabilities have enabled Amentum to support our customer's requirements with other special projects, including:

- **Project Mulligan:** Digital and physical force protection training designed for the leadership, command teams, and soldiers of the Security Force Assistance Brigades.
- **INDOPACOM Cyber Training:** Open-source intelligence and forensics software training (Maltego) provided to SOCPAC personnel in Okinawa, Japan.
- **Non-Standard Logistics Training:** Training provided to the Special Forces Warrant Officer Institute on how to logistically support special forces and SOF units in remote or denied areas.
- **Managed-Attributable Purchases:** Purchases made in a way that does not draw attention to the customer.
- **Surveillance Training and Non-Standard Purchases:** Training and resources provided to support Advent Laden training.
- **One-on-One Discussion:** Provided a retired ambassador and a former chief of station with geographical relevance to sit down, one-on-one, with a team in a condensed Mission Planning Cycle preparing for a short-notice deployment.

## Advanced Skills Training

- Special Forces Intelligence Sergeants Course (MOS18F)
- Advanced Tactical Technical Course-Brighton
- Advanced Tactical Technical Course-Touchstone
- Special Warfare Operational Design Course
- Special Warfare Network Development Course
- Special Warfare Physical Surveillance Training Courses
- Special Forces Technical Surveillance Training Courses

## Dedication to Safety, Ethics, & Performance

At Amentum, our focus will always be on safety, ethics, and performance. We understand the importance of human capital development and are committed to this sound and necessary investment. Our "safety moments" before meetings, annual live ethics training, and annual performance reviews are embedded in our culture and our core values. It is our personnel who build customer trust and allow us to continue to lean forward providing an innovation-driven future in support of our customers' missions.

## Growing Ability to Support the Mission

In November 2020, Amentum officially acquired **DynCorp International**, a provider of sophisticated aviation, logistics, training, intelligence and operational solutions in 30+ countries worldwide. By leveraging efficiencies and economies of scale in both companies, Amentum is uncovering synergistic opportunities that enhance our operations. This acquisition will allow our customers to continue to enjoy outstanding performance, combined with a greater focus on the federal market and a higher level of investment and capital allocation that will benefit our federal clients.

### About Amentum

Amentum is a premier global technical and engineering services partner supporting critical programs of national significance across defense, security, intelligence, energy, and environment. We draw from a century-old heritage of operational excellence, mission focus, and successful execution underpinned by a strong culture of safety and ethics. Headquartered in Germantown, Md., we employ more than 34,000 people in all 50 states and perform work in 105 foreign countries and territories.
