**To our current and future small business & diversity partners and their communities,**

At Amentum, we understand the value of teamwork. As we stand shoulder-to-shoulder with our customers in support of their most critical missions, we depend on each other; they can't complete the mission alone, and they rely on us to bring in the critical pieces to fulfill their needs.

The needs of our customers are diverse, ranging from systems engineering to integration of new, innovative technologies. We need the best experts on our team in order to deliver unsurpassed services and solutions for our customers, and we know many of the specialists we need are to be found in small businesses across our country.

**At Amentum, we are committed to actively supporting our small business and diversity partners along with the communities they enrich. We believe in creating long-term relationships built on trust that create value for everyone involved.**

Our commitment to small business is genuine; since 2015, we have awarded more than 60 percent of our subcontracted dollars to small business concerns. We are committed to helping you develop your capabilities & know-how, sharing opportunities, achieving formal Mentor-Protégé and will recognize your efforts through our annual Small Business Awards initiative. You can count on us to work with you to create outcomes that benefit those we serve while treating each other fairly.

Whether you are a small disadvantaged business, a veteran-owned small business, a service-disabled veteran-owned small business, a woman-owned small business, a HUBzone company, a historically black college or university, or a minority-owned business, there is a place for you on the Amentum team. I encourage you to learn more about our company and connect with our Small Business Office to find out about our current opportunities.

We look forward to working with you!

Sincerely,

A handwritten signature in black ink, appearing to read "John", with a stylized flourish extending to the right.
