## Introduction

Amentum is a premier global technical and engineering services partner to the US Government and its allies, supporting critical programs of national significance across the defense, security, intelligence, energy, and environmental services markets.

Every day at Amentum we are changing the world for the better, solving our customers' complex challenges by leveraging our experience and innovative solutions. We draw from a century-old heritage of operational excellence, mission focus, and successful execution underpinned by a strong culture of safety and ethics. As demonstrated by our corporate values below, we expect our valued Business Partners (subcontractors, vendors, consultants and suppliers) to hold themselves to the same high standards to ensure that we can continue to conduct business together in the future.

## Inspiring Integrity is Central to All We Do

The Amentum Code of Conduct demands that we act with integrity in all that we do. We have a commitment to doing the right thing, always. We expect our Business Partners to operate with the same level of integrity. In addition to selecting Business Partners who demonstrate the same level of integrity that we do, Amentum also considers small business and diversity when selecting Business Partners.

## Working with Our Customers and Business Partners

**Honest and Fair Dealings** – We operate with a focus on complete honesty and accuracy in everything we say, write, and do. We treat each customer and client fairly and honestly and we honor our promises to our employees, customers, and Business Partners. We do not engage in any conduct that may constitute a real or

perceived conflict of interest and expect the same from our Business Partners.

**Working with the Government** – We are committed to complying with legal, regulatory, and contractual requirements that apply to our government contracts. We adhere to the Federal Acquisition Regulation (FAR), Defense Federal Acquisition Regulation Supplement (DFARS) and Agency Supplements, public laws, contractual requirements, as well as our company policies and procedures that are tailored to the federal government and commercial contracting environment. We also expect the same compliance from all our Business Partners.

**Working with Our Business Partner** – We recognize that our relationships with our Business Partners are critical to our success, so we partner with businesses that embrace our high ethical standards.
