

Connecting the warfighter.

Custom MWR (Morale, Welfare and Recreation) Solution by Delta Bridge

Morale, Welfare and Recreation allow for the warfighter to connect to the internet, access social networks, and communicate with friends and family while deployed without interfering with operations.

Delta Bridge's Custom MWR Solution

Seamlessly delivers the required speeds for dedicated satellite internet.

High performance in rugged, remote, and desert environments without any degradation in service.

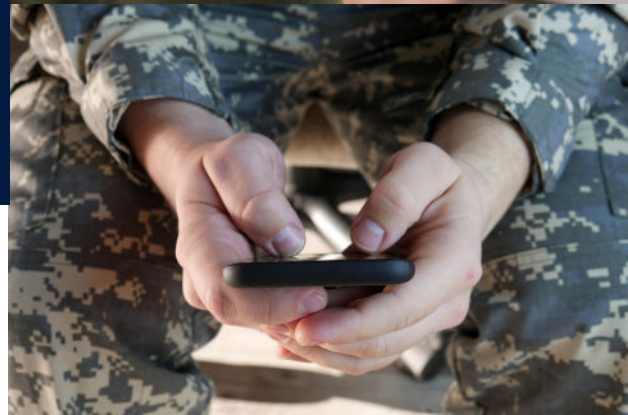

Delta Bridge's Ka-, Ku-, and C-Band satellite internet is delivered via a fixed VSAT terminal to satisfy the warfighter's needs.

Benefits

Equipment can allow for higher levels of service as customer needs expand with no hardware changes.

- ✓ Our proprietary platform exceeds the required level of services while charging a lower price
- ✓ 100Mbps download / 16Mbps upload maximum burst capabilities
- ✓ Low contention ratios and more consistent levels of throughput than our competition

About Delta Bridge

Delta Bridge is a systems integrator and service provider of Satellite Communications to commercial and U.S. government customers, including DoD, State and classified customers.

Our efforts to support connectivity have spread to over 40 countries with over 1000 network installations and operations worldwide -- but mainly in the Middle East and Africa.
